# SPREADING THE VISION OF POLITECNICO DI MILANO

Fellows of Politecnico di Milano (FPM.US) is an American nonprofit organization (501(c)3) established in 2021 in New York City, and it is dedicated to supporting and spearheading the vision of Politecnico di Milano in the United States of America.

FPM.US board includes industry and academia professional leaders who are building cultural alliances and partnerships between Italy and the US.

FPM.US PROPELS  
THE VISION OF  
POLITECNICO DI  
MILANO TO SHAPE  
THE FUTURE BY  
LEVERAGING  
THE ITALIAN  
HUMANISTIC  
APPROACH  
THAT BLENDS  
SCIENTIFIC AND  
TECHNOLOGICAL  
INNOVATION WITH  
HUMAN-CENTERED  
DESIGN AND  
CREATIVITY.

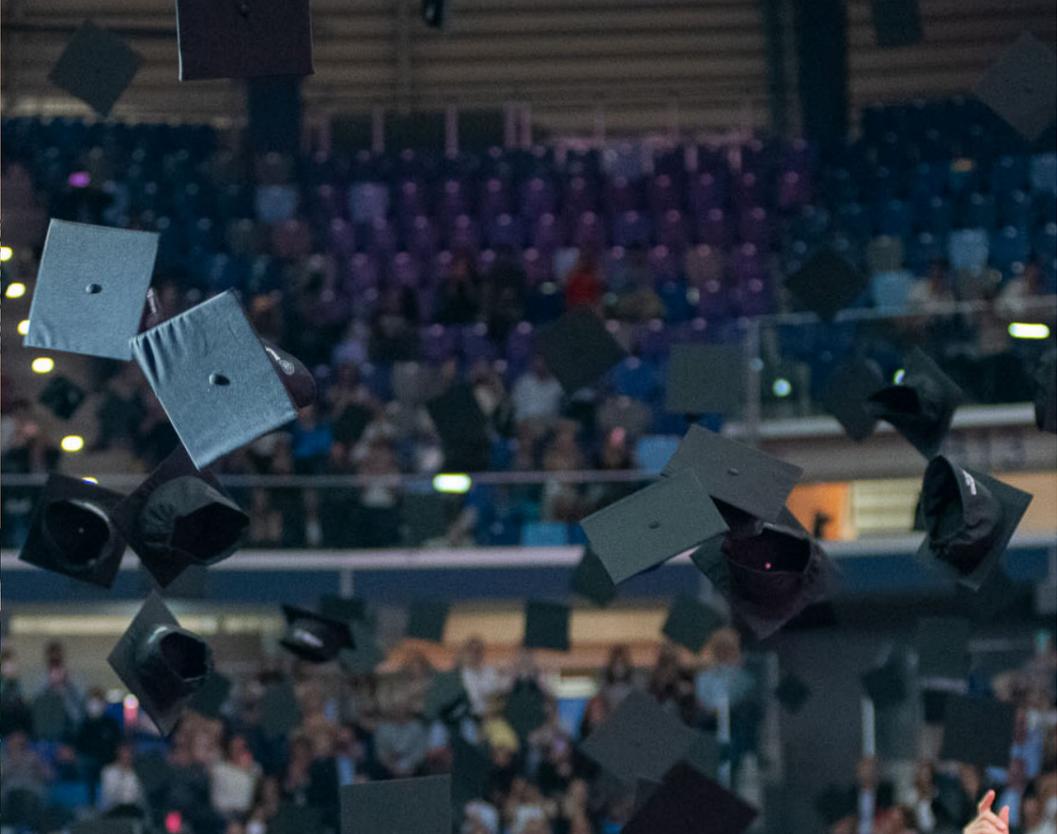

# WHAT WE OFFER

SUPPORT THE INNOVATION BY FUNDING SCHOLARSHIPS, SPONSORING AND MENTORING POLITECNICO DI MILANO'S STUDENTS AND RESEARCHERS WHILE GETTING IN TOUCH WITH A BIG NETWORK OF ALUMNI AND EXPERTS IN THE US AND IN ITALY.

FPM.US is a great opportunity for Alumni, Companies, and Institutions to promote the beauty and human-centered innovation, help the students complete their learning path, and get in touch with strategic partners, increasing your network of contacts.

**PROMOTE HUMAN-CENTERED INNOVATION**  
by supporting the projects and researchers of Politecnico di Milano

**RAISE THE PROFESSIONALS OF TOMORROW**  
by mentoring students and PhDs

**GET IN TOUCH WITH STRATEGIC PARTNERS**  
by tapping into a network of Alumni and experts

# FPM.US IS FOR ALUMNI, COMPANIES, AND ORGANIZATIONS

“ We built FPM.US like a bridge, to connect Politecnico di Milano to the North American Community made of Alumni, Fellows, Italian Companies and Institutions in the US, and the US Academia - a bridge made of beauty, humanity and innovation. ”

# WHAT WE DO

**WE ACT AS A DEDICATED PROFESSIONAL BASE IN NORTH AMERICA TO SUPPORT POLITECNICO DI MILANO IN THE DEVELOPMENT, MANAGEMENT, AND IMPROVEMENT OF RESEARCH AND EDUCATION**

Charitable

We create new opportunities for students, researchers, and Alumni through fundraising campaigns and the interactions with the donors

Scientific

We develop and support the scientific work by promoting bilateral cooperation between Italy and North America; we offer networking opportunities for scientists in the US; we advocate for the creation of a joint American/Italian Research Center

The activities of FPM.US are important for two reasons:  
1- the network and relationships strengten by shared values and friendship;  
2- PoliMI's reputation as a forge of excellence that generates opportunities for the professional development of its Alumni/ae

Education

We organise educational activities, such as: mentoring programs, scholarships for students and professors, networking events for Alumni, events on courses of Politecnico di Milano, and more

## Empowering future engineers: the Girls@Polimi project

**GIRLS@POLIMI** is a dedicated initiative aimed at supporting young women who choose to pursue studies and careers in the fields of **STEM** (Science, Technology, Engineering, and Mathematics), where **gender gap still persists**.

By participating in **GIRLS@POLIMI**, you have the opportunity to **inspire aspiring female engineers** to join **Politecnico**. This project specifically targets high school students in their fourth and fifth year, guiding them towards a **future in university education**. Initially launched under the POP-Equal Opportunities Politecniche program, it has become a **flagship initiative** promoting **equal opportunities** and **inclusion** within the institution.

Your support will provide scholarships to female students who choose to study Engineering at Politecnico, **particularly in programs with low female representation**.

Join us in **fostering diversity** and **empowering the next generation of women in STEM** through your valuable support.

## Revolutionary and Road-Ready: Join the Ride with 1000 MAD!

Embark on an **incredible journey** with Politecnico di Milano as they **pioneer the world's first autonomous vehicle experiment on public roads** tested on different types of scenarios and contexts. Brace yourself for a **thrilling exploration** across diverse environments! Powered by **cutting-edge autonomous driving technology**, the MC20 Cielo from Maserati takes the lead. With the invaluable support of **Millemiglia**, the patronage of **MOST - National Center for Sustainable Mobility**, and a network of **dedicated sponsors** and technical suppliers, this project is **driving us into the future**.

Be a part of the journey and help us reach our **next milestones**:

- Refining Phase: **Unleashing perfection** post Millemiglia 2023
- **Millemiglia 2024**: Witness the marvel as we **conquer the entire route!**

## Resilience of Flooded Territories in Emilia-Romagna: Modigliana Laboratory

This project conducts a **multi-disciplinary investigation** of recent calamities in Emilia-Romagna territories. Through a collaborative convention between the **Department of Architecture, Built Environment and Construction Engineering of Politecnico di Milano** and the **Municipality of Modigliana**, it empowers **public engagement**. Short-term goals include **mapping risk areas, creating a damage database, and constructing vulnerability maps**. Long-term, it aims to **develop strategic guidelines for resilient reconstruction** and establish a **pilot project living lab**. This living lab will serve as a **model for testing innovative approaches** to enhance resilience. Promoting a **multi-scale sustainability** is a **priority**.

**Your support** for this project will directly contribute to **funding a research fellowship**, enabling the **exploration of innovative solutions** to build **resilience in flooded territories**. By backing this endeavour, you play a **crucial role in enhancing disaster preparedness and bolstering the community's capacity** to overcome future challenges, fostering a **safer and stronger environment for all**.

## Design for Empowered Patientship: a collaborative US-ITA platform

**Design for Empowered Patientship** is a collaborative platform advancing patient innovation in the US and Italy. It explores care system evolution, user-driven healthcare, and maps actors and projects in Milan and Boston ecosystems. The initiative identifies **opportunities**, creates **patient-centered metrics**, and **secures funding for healthcare design strategies**. Understanding patient needs, it envisions personalized, **empathetic healthcare driven by patients and caregivers**. The project aims at improving health outcomes, **empowering patients and caregivers as active participants and healthcare innovators**. **Your contribution will shape the future of healthcare**, fostering a more compassionate and **effective ecosystem**, while supporting the **growth and potential of young researchers** dedicated to advancing patient-centric care. By driving research and initiatives, it cultivates innovation that enhances patient experiences and **transforms healthcare on both sides of the Atlantic**.
